

**Amenities and Leisure Committee Meeting – 2<sup>nd</sup> March 2022**

**Agenda Item 11**

**Noticeboards Report**

In December 2021, an inspection of the 33 ETC noticeboards was carried out and the details of the inspection were recorded on a newly created spreadsheet.

Each noticeboard was categorised using a Red/Amber/Green system: -

**Red** – Repair work needed and repaint

**Amber** – Repaint Only

**Green** – No work required

9 noticeboards were identified as needing repair work and a repaint and 4 noticeboards were identified as needing just a repaint.

In January 2022 work began on the noticeboards, focusing on those that were in the Red category. At the time of writing, work on 8 of the 9 noticeboards identified for repair and a repaint has been completed and work has begun on the noticeboards in the Amber category.
